**The Memorial Junk + Yamaoka Yasuhiro** +++ These chosen sound files are from my very early recordings in 1977 to 1987 + I used to play with various electric devices which include Compact Cassette Tape recorders, turntables, airwaves receivers, etc, and with several musical instruments since 1975 + These devices spreaded out my sound experiences + I began collecting various sounds around me + Sometimes, recorded with my musical instrument playings ++ My very private label; Scribble Records was made to release my collections in 1982 + The name of this label comes from my first collection's title in 1975: The Scribbling Days ++ Most of files in The Memorial Junk are from Scribble Records releases
